President's Message:

At Aquarius Supply, we pride ourselves on being the "honest distributor." Please be careful of other supply houses that offer one price and bill you for another and constantly change the prices on your invoice. Aquarius will only change your price when our vendors' prices change. Our family run business follows honest business practices with a high level of integrity. You don't have to audit your Aquarius invoice which saves you time to conduct your business. Please check out our training seminars, new products and the marketing materials Aquarius has to offer. Thank you for your support.

Robert Beausoleil

AQUARIUS SUPPLY™

WHERE THE PROFESSIONAL CONTRACTOR COMES FIRST™

RAIN BIRD®

August Special
20% Off

NEW

Rain Bird XF™ Series Dripline

The most flexible, kink-resistant tubing available, it's ideal for irrigating areas where traditional drip tubing is difficult to install. XF™ dripline is perfect for small, narrow and tight planting areas, as well as areas with tight curves or many switchbacks.

Rain Bird XF™ Series Dripline

Rainwater Harvesting is here. Please contact an Aquarius Associate for any questions you may have on this new product line.

New Product at Aquarius Supply DETENTION BASINS, PONDS, RAINWATER HARVESTING

The EcoRain™ Modular Rain Tank is ideally suited for simple cost effective underground vaults that can temporarily store stormwater to be released in a controlled manner.

EcoRain™
MODULAR
RAIN TANKS

The EcoRain™ rain tank has more water storage capacity than gravel, is easier to clean and less prone to clogging, requires a smaller reservoir, uses less labor in excavating the basin and moving gravel. Now in stock at Aquarius!!
